

## Classifying the Entire Service Line When Ownership Is Split

**Purpose of this worksheet:** To summarize EPA's requirements for classifying the entire service line when ownership is split.

### Introduction

In many cases, service line ownership is **split** meaning that the system owns a portion and the customer owns a portion of the service line. Exhibit 1 below is a diagram of a possible division in service line ownership between the water system and customer. While the LCRR requires the inventory to categorize each service line or portions of the service line where ownership is split, a single classification per service line is also needed to support various LCRR requirements, such as lead service line replacement (LSLR), tap sampling, and risk mitigation. **Table 1 below indicates how to classify the material for the entire service line when ownership is split between the water system and customer.** For more information, see EPA's, *Guidance for Developing and Maintaining a Service Line Inventory* (2022).

### Exhibit 1. Example of Service Line Ownership Distinction between the Water System and Customer

Source: Exhibit 2-2 of *Guidance for Developing and Maintaining a Lead Service Line Inventory* (USEPA, 2022).

**Table 1: Classification of Entire Service Line When Ownership is Split**

System-Owned Portion	Customer-Owned Portion	Classification for Entire Service Line
Lead	Lead	Lead
Lead	Galvanized Requiring Replacement	Lead
Lead	Non-lead	Lead
Lead	Unknown	Lead
Non-lead	Lead	Lead
Non-lead and never previously lead	Non-lead - galvanized	Non-lead
Non-lead	Non-lead - material other than galvanized	Non-lead
Non-lead	Unknown	Unknown
Non-lead, but may have previously been lead	Galvanized Requiring Replacement	Galvanized Requiring Replacement
Unknown	Lead	Lead
Unknown	Galvanized Requiring Replacement	Galvanized Requiring Replacement
Unknown	Non-lead	Unknown
Unknown	Unknown	Unknown

### Drop Down Lists for Detailed Inventory

Lead  
Lead-lined galvanized  
Non-Lead galvanized  
Non-Lead copper  
Non-Lead plastic  
Non-Lead other  
Unknown- likely lead  
Unknown- unlikely lead  
Unknown - material unknown

Records  
Installation date after lead ban  
Service line diameter > 2 inch  
Field inspection  
Statistical method  
Other

Records  
Service line diameter > 2 inch  
Build/installation date after lead ban  
Customer report  
Field inspection  
Statistical method
